16 June 1953

MEMORANDUM FOR THE DIRECTOR

Recommend signature.

What this paper says in simple terms is that we do not feel our Senior Representatives are getting a sufficient flow of our intelligence publications. DD/I will undertake to see that those Senior Representatives where he has staff members are supplied by him, and DD/P will be responsible for supplying all others. It also specifies that these reports will be destroyed after they have served their purpose.

Lyman Kirkpatrick
